

Knock 'em down can shy

You will need:

- Several empty Del Monte Fruit cans
- Acrylic paints (in various colours)
- A paint brush
- Old newspaper

Method:

- Ask an adult to soak the can to remove the label; and thoroughly clean and dry it for you.
- Dip your paintbrush in your chosen paint colour and paint the outside of your cans, making sure there are no silver bits showing through. You could do different colours on each of the cans. Leave them to completely dry.
- Once fully dry, you can add various shapes with your other paint colours, or why not try adding stickers?
- Leave to dry completely and then stack them up in a pyramid or tower shape.
- Scrunch up some old newspaper into balls and throw them at the cans. How many can you knock down in one go?

Be careful: Make sure you have an adult supervising and be careful of sharp edges!
